

High Quality Vehicle Video Systems

Viewtech Heavy Duty Reversing Kit

Built tough for industrial, agricultural and heavy transport applications.

Features

- Use for reversing or for watching traffic behind vehicle
- 3 camera inputs and one AV input
- Hi resolution 800 x 600 digital monitor with superior brightness - 400mcd brightest on the market
- Hi resolution CCD colour camera with infrared night vision and audio
- automatic defrosting and demisting. (heater kicks in when temperature drops below 10 degrees)
- 160° wide camera viewing angle
- Each rear video input also has a 12V output.
- Each rear video input has a power sensing wire which when taken to a positive voltage will automatically select that view (door view, reversing camera etc)
- 10V-32V dynamic voltage input range. Handles spikes and volt drops experienced in a 24V systems.
- versatile mounting options for both camera and monitor.
- monitor button lights automatically illuminate in the dark
- IP69K water rating on camera - can be pressure washed

Applications

- Agriculture
- trucking
- motor homes
- forklifts and loaders

Part SV7HD20

Driller Seeder

Drill Rig

Water Tanker
