# **Intellian**<sup>®</sup>i3

**Compact but Powerful Marine Satellite TV Antenna System** 

### Intellian<sup>®</sup> i3 The compact and stylish Intellian i3 ideally

brings a perfect fit for boats as small at 25 feet. With its embedded HD modules, the i3 brings the boaters excitement and variety of satellite HDTV programs simultaneously whether the vessels are traveling around the coast or heading offshore.

- Optimized Design with 15" Dish Diameter
- Compact but Powerful with Affordable Value
- User-friendly & Easy to Install
- Seamless Viewing (Automatic Satellite Switch) of All DISH Network and Bell TV Channels.

Avilable with DISH MIM (Multi-satellite Interface Multi-switch)

#### **Compact Size with Powerful Performance**

15 inch dish diameter with nationwide coverage for North & South America, Europe and the regional service around the globe.

#### **Faster Signal Acquisition**

Intellian's exclusive Wide Range Search (WRS) algorithm allows the antenna to search, find and lock on to a signal with incredible speed and accuracy.

#### A Firm Hold on the Signal

Intellian's exclusive Dynamic Beam Tilting (DBT) uses a high performance, constantly adjusting sub-reflector which allows the antenna to remain the strongest signal at all times while the vessel is cruising at high speed.

#### **Simple & Easy Installation**

With a single cable to connect the antenna and the ACU, Intellian i3 systems are quick and easy to install. Our advanced ACU is designed to require minimum setup so you can begin to enjoy TV programs aboard your boat in no time.

#### **Tune in Your Favorite HDTV Channels**

Intellian's i3 provides HD channels from the Ku-band. The HD module is actually built-in to the Antenna Control Unit of the Intellian i3 for seamless integration and easy installation.

#### **Built-in GPS**

The Intellian i3 includes a built-in GPS for easier operation and faster signal acquisition. It allows the i3 to have higher accuracy and easy operation wherever the vessel sails.

#### **User-friendly Operation**

Antenna Control Unit (ACU), which is supplied as a default package, gives you the user-friendly operation for various function.

## Intellian<sup>®</sup> i3

#### **Compact but Powerful Marine Satellite TV Antenna System**

#### **Key Features**

#### **Fully Automated System**

Automatic satellite search and identification 2-axis step motors to stabilize the pedestal.

#### **Enhanced Antenna**

Highly efficient parabolic antenna enables 50dBW of minimum EIRP. RHCP / LHCP, Vertical / Horizontal polarization

#### **Compact Size**

15 inch antenna dish diameter Light antenna weighs less than 20 pounds.

#### Wide Range Search (WRS) Algorithm

Competitor methods search for the narrow-bandwidth of the main lobe. However Intellian's exclusive WRS searches for the wide range of side lobes and jumps up to the main lobe, providing faster satellite acquisition.

#### **Dynamic Beam Tilting (DBT) Technology**

A high-speed sub-reflector rotates off axis, checking signal strength at 50 times per second and compensating the tracking direction. Less movement of the main-reflector means less noise and extends the product life.

#### Fully Automated Digital Video Broadcasting (DVB)

Identification DVB Decoder with CPLD enables high speed identification.

#### **New Type Antenna Control Unit**

Easy to change and update satellite information Easy antenna status check and automatic diagnosis Easy antenna control using PC interface

#### **Built-in GPS and NMEA 0183 Interface Port**

The i3 includes a built-in GPS inside of the Antenna Unit for faster signal acquisition. The ship's GPS can also be connected through the NMEA 0183 port on the rear panel of the ACU.
