# 3M™ PELTOR™ WS™ LiteCom Plus Headset

Smart solutions, easy communication

3M™ PELTOR™ WS™ LiteCom Plus Headset is a hearing protector with an integrated analog two-way radio, Bluetooth® communication, and a noise-cancelling speech microphone to deliver a wireless hands-free protective communication solution. The environmental listening technology assists workers to hear environmental sounds in low noise and helps provide protection when it's loud.

# 3M™ PELTOR™ WS™ LiteCom Plus Headset

The 3M™ PELTOR™ WS™ LiteCom Plus Headset is a next generation protective communication solution. The analog UHF two-way radio enables clear, hands-free communication in high levels of noise. With Bluetooth® multipoint connectivity, the headset can be simultaneously connected to two Bluetooth® enabled devices. And with the noise-cancelling boom microphone that carries a water- and dust-proof IP68 rating, workers can have clear, hands-free communication in noisy and harsh environments.

All settings and controls on the 3M PELTOR WS LiteCom Plus Headset are designed to be intuitively simple.

## 3M™ PELTOR™ WS™ LiteCom Plus Headset Models:

### Headband

MT73H7A4610WS6NA

### Neckband

MT73H7B4610WS6NA

### Hard Hat Attached

MT73H7P3E4610WS6NA

**3M PSD products are for occupational use only.**  
 U.S. EPA specifies the NRR as the measure of hearing protector noise reduction. However, 3M makes no warranties as to the suitability of the NRR for this purpose. 3M strongly recommends personal fit testing of hearing protectors. Research suggests that users may receive less noise reduction than indicated by the attenuation label value(s) on the packaging due to variation in fit, fitting skill, and motivation of the user. Refer to applicable regulations for guidance on how to adjust attenuation label values. It is recommended that the NRR be reduced by 50% to better estimate typical workplace protection.
