OPTIONS & ACCESSORIES

The right choice of accessories can optimize and complete the communications experience

A Tait radio is not a solitary product, it supports a range of great accessories. We recommend tailoring each user's experience to suit their industry and role. Select the battery that's the right balance of weight versus shift-life. Select a carry accessory that makes the radio easier to wear, and keeps the radio protected and in good working order.

The right audio accessories, like speaker mics and ear-pieces, can make team communication much more effective. Optimizing audio performance means calls can be heard first time during normal operations and emergencies, keeping channels clear for other users.

Batteries

TP9000 Portable Radio Batteries

Select the performance and capacity options that are right for your organization's needs.

For best shift life, we recommend the 3300mAh High Capacity Battery. This is the same form factor and dimensions as the Tait Performance Battery, but with an improved shift-life for high duty-cycle, long shift, or demanding applications.

GENERAL TAIT BATTERY FEATURES

- ▶ Premium quality Li-Ion cells
- ▶ Over charge protection
- ▶ Over-current protection
- ▶ Thermal protection
- ▶ Over-discharge protection

BUILT TO EXCEED AND SURVIVE TAIT TOUGH AND MIL-STD810G DROP TESTS

- ▶ Strong attachment
- ▶ Rubberized corners

BATTERY

Slimline Li-Ion 1880mAh

 **T03-00011-AAAA**

Performance Li-Ion 2400mAh

 **T03-00011-CAAA**

High Capacity Li-Ion 3300mAh

 **T03-00011-EAAA**

	Weight	Size (WxHxD)	Shift Life
Slimline	130g / 4.6oz	2.4in x 4.7in x 0.7in (61mm x 118mm x 17mm)	Up to 15 hours
Performance	175g / 6.2oz	2.4in x 4.7in x 0.8in (61mm x 118mm x 21mm)	Up to 19 hours
High Capacity	188g / 6.6oz	2.4in x 4.7in x 0.8in (61mm x 118mm x 21mm)	Up to 27 hours

For use with:

TP9000

Not for use with Intrinsically Safe or Non-Incendive radios.

Expected shift life varies between models and modes of operation - please refer to individual radio specification sheets for the expected shift life for each model.

Batteries

TP9800 AA Battery Pack / Clamshell

Increase worker safety when you're in remote areas where power may not be available for rechargeable batteries. AA batteries are readily available and can be stockpiled for extended remote operations.

AA BATTERY PACK / CLAMSHELL

AA BATTERY PACK

 **T03-00011-HAAA**

- Fits 12 x AA 1.5V dry cell alkaline batteries (lithium rechargeable batteries are not recommended).
- Exceeds 8 hours shift life at 2W power (10/10/80) in analog or P25 Phase 1 digital modes (US Department of Interior specification).
- Tait Tough:
 - Designed to IP67 dust and waterproof rating, drop tested and MIL-STD810 514.8 Vibration tested.
 - The base of the Tait clamshell features the same two-shot rubber molding that is found on the corners of TP9000 portables and batteries.

For use with:

- TP9800 with custom software loaded

Not for use with Intrinsically Safe or Non-Incendive radios.

Batteries not included.

Batteries

TP3 Portable Radio Batteries

For use with the TP3000 range only.

TP3 SPARE BATTERY

TP3000 Li-Ion Battery 2000mAh

 TP3000-BAT

Features

- Chemistry: Lithium Ion
- Capacity: 2000mAh
- Built in over current protection, temperature sensing, charge contact isolation
- Up to two extra batteries can be supplied in each radio carton

For use with:

TP3000

Not for use with Intrinsically Safe or Non-Incendive radios.

Chargers

TP9000 Desktop Chargers

Choose the appropriate plug pack for your region. These Desktop Chargers are available as either a Single Charger or a convenient 6-Way Multi Charger.

SINGLE CHARGER FAST LI-ION

No Plug Pack

 **T03-00012-AAAA**

With Australia/New Zealand Plug Pack

 **T03-00012-ABAA**

With United Kingdom Plug Pack

 **T03-00012-ACAA**

With Europe Plug Pack

 **T03-00012-ADAA**

With North America Plug Pack

 **T03-00012-AEAA**

With Brazil Plug Pack

 **T03-00012-AFAA**

- There are options without plug packs.
- This is a desktop charger
- Charge radio with battery attached, or battery only

For use with:

- TP9000 radios and batteries

Not for use with Intrinsically Safe or Non-Incendive radios.

MULTI CHARGER LI-ION (6-WAY)

No Mains Cable

 **T03-00013-AAAA**

With Australia/New Zealand Mains Cable

 **T03-00013-ABAA**

With United Kingdom Mains Cable

 **T03-00013-ACAA**

With Europe Mains Cable

 **T03-00013-ADAA**

With North America Mains Cable

 **T03-00013-AEAA**

With Wall Mounting Kit

 **TPA-CH-012**

- There are options without plug packs.
- This is a desktop charger
- Charge up to six radios with batteries attached, or batteries only

For use with:

- TP9000 radios and batteries

Not for use with Intrinsically Safe or Non-Incendive radios.

Chargers

TP9000 Transportable Chargers

Rapid field-deployable communication is essential to emergency responders. Scalable communications equipment such as the Transportable Multi-charger extends your normal field of operation and enhances flexibility.

The TA3004 Transportable Multi-charger can be powered by 110-240VAC mains, a vehicle accessories socket or a stand-alone 10-30VDC power source, like a battery, making it extremely versatile.

The Transportable Multi-charger's rugged pelican case with its lid up can charge a combination of portable radios and batteries at a time, both Slimline 1880 mAh Lithium Ion (Li-ion) or Performance 2400 mAh Li-ion batteries can be used.

Note: Charging can only be carried out with the lid open. The unit is not waterproof with the lid open.

TRANSPORTABLE MULTI-CHARGER

Orange

 TA3004-01

Silver

 TA3004-02

Features:

- Can charge a combination of up to six radios or batteries (either Slimline 1880mAh or Performance 2400mAh) simultaneously
- Easily deployed rugged 1520 Pelican case with aluminum internal chassis
- Can store up to six TP8000/9000 radios (with batteries and belt clips fitted), and six spare batteries
- Displays a red LED while battery is charging, green LED when battery is fully charged, and amber LED if there is a charging fault or error
- Standard IEC AC socket connected to an internal switch-mode power supply
- 110-250VAC input, fused and switched
- External DC power input, 10-30VDC at 13A
- DC power cord with a vehicle accessory plug to a 4-pin Amphenol plug, switched and fused
- DC power cord with crocodile clips to a 4-pin Amphenol plug for use on any 10-30VDC 13A power source
- Country-specific IEC AC power cords are available.

Size: L 182mm, W 124mm, H 58mm

Weight: approx. 12kg with 6 radios and 12 batteries fitted

Typical Charge Time: 1880mAh Li-ion 1.5-2hrs, 2400mAh Li-ion 2-2.5hrs

Maximum charge time: 1880mAh Li-ion 2.5hrs, 2400mAh Li-ion 3hrs

NZ Compliance only. Contact your Tait representative for availability and pricing in other regions

For use with:

- TP9000 radios and batteries

Not for use with Intrinsically Safe or Non-Incendive radios.

Chargers

TP9000 Vehicle Chargers

Our unique in-vehicle charger provides charging even in the toughest vehicle environments, ensuring batteries are optimally charged to keep users connected over long shifts. The vehicle charger can charge batteries connected to the radio, and also on their own.

This rugged in-vehicle radio charger securely holds the radio, exceeding crash-test requirements, minimizing in-vehicle hazards.

VEHICLE CHARGER

CHARGING SOLUTION FOR PORTABLE RADIOS

 **T03-00014-BAAA**

Charging portable radios within a vehicle is a vital aspect of everyday operation. Unforeseen events require the flexibility to charge portables radios while on operation, so you are always prepared. The Vehicle Charger has been designed for tough conditions to assure reliable charging, and also keep the portable radio secure.

EFFICIENT CHARGING

The charger displays charging information consistent with the other Tait chargers. Battery faults, charging cycle and ready batteries are clearly indicated.

SUITABLE FOR MOUNTING IN VEHICLE

This charger is supplied with a power cable, but no fasteners, and can be mounted in a variety of different ways, including installation against a vertical surface. When properly fitted, the charging radio is safe and secure.

For use with:

- TP9000 radios and batteries

Not for use with Intrinsically Safe or Non-Incendive radios.

Chargers

TP9000 Vehicle Chargers (continued)

Our unique in-vehicle charger provides secure charging even with the roughest treatment, ensuring there is always a fresh battery available to keep users connected over long shifts.

This rugged in-vehicle charger is secure, even in crashes, to reduce in-vehicle hazards.

VEHICLE CHARGER FOR BATTERY ONLY

SECURE CHARGING SOLUTION FOR SPARE BATTERIES

 **T03-00014-AAAA**

The ability to charge spare batteries during operation is vital. You never know when shifts will be extended due to unforeseen events, and having a fully charged extra battery ready provides peace of mind when in critical missions.

The Battery Only Vehicle Charger has been designed for tough conditions to assure continuous charging.

EFFICIENT CHARGING

The charger displays charging information consistent with other Tait chargers. Battery faults, charging cycle and ready batteries are clearly visible.

SUITABLE FOR MOUNTING IN VEHICLE

The battery charger is very simple to use with positive audible feedback of insertion. Two rubber studs help ensure robust attachment in a moving vehicle.

Four mounting screws are available for firm and reliable contact with the mounting surface. The battery is easily accessible for urgent need by pressing the top clip.

For use with:

- ▶ T03-00011-AAAA Slimline Li-Ion 1880mAh battery
- ▶ T03-00011-CAAA Performance Li-Ion 2400mAh battery
- ▶ T03-00011-EAAA High Capacity Li-Ion 3300mAh battery

Not for use with Intrinsically Safe or Non-Incendive radios.

Chargers

TP3 Chargers

Desktop Chargers are available as a Single Charger that offers the flexibility to use the plug pack for the region of your choice, or a convenient 6-Way Multi Charger.

For use with: TP3000 radios and batteries.

SINGLE CHARGER WITH MULTINATIONAL PLUG PACK

Single Charger with Multinational Plug Pack TP3000-CH1

- Triple LED Indication
- Temperature, voltage, battery type detection
- Over-charge timeout
- Includes regional plugs for Australia/New Zealand, United Kingdom, Europe, North America and Brazil
- Plug pack rated at 12V, 2A

For use with:

- TP9000 radios and batteries

Not for use with Intrinsically Safe or Non-Incendive radios.

MULTI CHARGER (6-WAY)

6-Way Charger with Power Pack TP3000-CH6

6-Way Charger Spare Plug Pack T03-00321-AAAA

Australia/New Zealand Mains Cable 219-01000-00

United Kingdom Mains Cable 219-01001-00

Europe Mains Cable 219-01002-00

North America Mains Cable 219-01561-00

Brazil Mains Cable 219-01007-00

- Specifically for TP3300 radios
- Supplied with a plug pack (6A, 12V), but spare plug packs are available
- IEC mains cables are sold separately to the 6-Way Charger

For use with:

- TP9000 radios and batteries

Not for use with Intrinsically Safe or Non-Incendive radios.

Carry Accessories

Carry Cases provide a range of options to provide:

- ▶ Extra protection for your radio, minimizing damage wear and tear and prolonging the life of your investment
- ▶ Choice of options personal comfort and ease of use when carrying and using your radio.

Tait radios are Built Tait Tough to take the knocks – the Tait Belt Clip, and Optional Belt Clip adapter provide:

- ▶ A low cost alternative to carry your radio
- ▶ Secure attachment, quick release, and improved RF coverage with the belt clip adaptor
- ▶ Full visibility of your radio, e.g. your high visibility color, blue for IS, custom labeling etc
- ▶ Full tactile and ergonomic access to the radio operation

Carry cases and belt clip adapters are very important tools for improving coverage by pushing the antenna farther from the body as the body can block or absorb signals.

Note: belt clip & belt clip adaptor also applies to TP8000, TP9000, TP9461 and TP9361 IS radios

ATTACHMENT TYPE

Belt Clip 55mm

 **TPA-CA-201**

Tough carry accessory.
Comes standard in every radio package.
Not included with spare batteries.
Strong attachment, easy to remove without tools.

For use with:

- TP8000/9000 radios

Belt Clip Adaptor for 55mm belt clip **TPA-CA-208**

This adaptor provides secure, robust attachment of radio to your belt, allowing easy release for handheld operation. Avoiding interference with day-to-day tasks is critical for active staff.

- Unique, rugged accessory designed to last
- Allows the radio to securely swivel 15deg forwards and backwards from center, providing ergonomic but constrained movement for user comfort
- Provides low-cost, secure radio attachment
- Release mechanism allows for easy intentional release, but makes it extremely difficult for the radio to be unintentionally removed – perfect for public safety and security usage
- Improves radio range by angling the antenna away from the user's body

REQUIRES: TPA-CA-201

Carry Accessories

Carry Cases – TP9000 series

HEAVY DUTY LEATHER

- ▶ Keep your hands free and portable radio safe with a durable heavy leather case.
- ▶ Resilient and robust, the Heavy Duty Leather cases withstand the toughest conditions, allowing you to focus on the job.

Note: TP81, TP93/4, and TP95/6/8 are different heights, so different carry cases apply to each

CARRY CASE HEAVY DUTY LEATHER D-STUD BELT LOOP

TP9310 0 Key Variant	 T03-00038-0001
TP9300/9400 4 Key Variant	 T03-00038-0004
TP9300/9400 4Key / 16 Key Variant	 T03-00038-0007
TP9500/9600/9800 4 Key / 16 Key Variant	 T03-00079-0001

Features:

- Belt loop is approx 55mm
- D-Stud for secure flexible attachment and easy release
- Improves coverage by pushing antenna farther from the body, as the body can block or absorb signals

Not for use with Intrinsically Safe or Non-Incendive radios.

CARRY CASE HEAVY DUTY LEATHER SPRING CLIP

TP9310 0 Key Variant	 T03-00038-0002
TP9300/9400 4 Key Variant	 T03-00038-0005
TP9300/9400 4 Key / 16 Key Variant	 T03-00038-0008
TP9500/9600/9800 4 Key / 16 Key Variant	 T03-00079-0002

Features:

- Spring clip is approx 45mm

Not for use with Intrinsically Safe or Non-Incendive radios.

Carry Accessories

Carry Cases – TP9000 series

HEAVY DUTY LEATHER (CONTINUED)

- ▶ Increase your carry options by including a Belt Loop or Belt Loop D-Rings.
- ▶ Use D-Rings to attach Shoulder Strap.

TP9300/9400 4 Key / 16 Key Variant	T03-00038-0037
TP9500/9600/9800 4 Key / 16 Key Variant	T03-00079-0007

Features:

- Product consists of the Heavy Duty Leather Belt Loop case with the addition of two D-rings, for attaching a shoulder strap (T03-00038-0034)

Not for use with Intrinsically Safe or Non-Incendive radios.

Carry Accessories

Carry Case Accessories – TP9000 series

HEAVY DUTY LEATHER (CONTINUED)

- ▶ Enhance your carry options with a Shoulder Strap for the Heavy Duty Leather case.
- ▶ Battery Spacer creates a secure fit when using smaller batteries in a full size carry case.

SHOULDER STRAP

Shoulder Strap for Heavy Duty Leather Case  **T03-00038-0034**

Features:

- Durable leather strap.
- Secure clasps to attach to Heavy Duty Leather Case.

For use with:

- Heavy Duty Leather Belt Loop D-rings carry cases (T03-00038-00035, T03-00038-00036, T03-00038-00037, T03-00079-0007)

BATTERY SPACER

Battery Spacer for Heavy Duty Leather Case  **T03-00038-0030**

Features:

- Comes with Heavy Duty Leather Carry Cases – this allows them to be used with the Slimline (thin) battery.
- Not required when radios have the Performance (thick) battery.

For use with:

- All TP8000/9000 radios (except for IS models) in Heavy Duty Leather Carry Cases

Not for use with Intrinsically Safe or Non-Incendive radios.

Carry Accessories

Carry Cases – TP9000 series

SOFT LEATHER

- ▶ Maintain durability against damage with a slim and smooth line Soft Leather case.
- ▶ Robust case, yet comfortable to wear and use.

Spring Clip for D-Stud 40mm

 **T03-00038-0023**

- For use with: All TP8000/9000 radios

AUDIO ACCESSORIES

The right audio accessories can help you do your job more safely and effectively

Whether your team operates in a particularly noisy environment, or has a need for covert communications, Tait offers a range of audio accessories to make sure voice calls get through loud and clear.

Audio Accessories for Tait Portables

Smart audio accessory selection plays an important role in worker safety and efficiency.

Tait portable radios share a common accessory connector, so audio accessories are generally compatible between models. Intrinsically Safe radios offer an extra level of electrical and thermal safety, so IS radios require specific accessories.

Tait recommends the use of Tait TDMA audio accessories with radios operating in TDMA modes. Tait TDMA audio accessories are tested to function in TDMA, and have “TDMA” molded in the radio connector. TDMA technology is used in DMR and P25 Phase 2. Visit www.taitradioacademy.com to learn more about TDMA technology.

SELECTING THE APPROPRIATE AUDIO ACCESSORIES

NOISY ENVIRONMENT?

When there's a lot of noise around you, one option is to just turn up the volume on your radio. This is not always practical, especially if the noise is intermittent or you're moving between areas of differing noise. Earpieces or noise canceling headsets can help you hear better amid loud noises. Your team also needs to be able to hear you when you're talking in a noisy environment. Some radio features and noise canceling accessories can also help reduce the background noise in your call. Microphone settings make a big difference. TP3 and TP9000 in DMR or P25 digital modes filters some background noise. TP9000 radios also have digital noise suppression. TP9500, TP9600, and TP9800 have dual-mic active noise cancellation for best-in-class audio volume and quality that works in both analog and digital modes. Proper radio and accessory configuration is the most important factor for these noisy environments to match performance to your budget and situation.

OUTDOOR OPERATION?

If the radio is to be worn on a belt or pocket, wearing it higher is better for reception and audio. Consider using a shoulder mounted speaker microphone. Wired in-ear accessories can also help.

CONFIDENTIAL CALLS?

If you expect calls of a sensitive nature, then an in-ear speaker should be used. If you do not want people to know you are transmitting, then a discreet finger-worn PTT is useful.

HYGIENE ISSUE?

If staff are to wear in-ear speakers, avoid hygiene concerns by issuing personal speakers, rather than sharing.

WIRED OR WIRELESS?

Tait supports a range of Bluetooth® audio accessories. Bluetooth® pairing can be less reliable than wired PTT, or the PTT on the radio. Select the balance of convenience and reliability appropriate for your team.

Audio Accessories Overview

The Tait audio accessory system is anchored by the standard audio accessory connector, found on all of our portable radios. This gives you the freedom to select the right accessories for you. Only approved accessories can be used with Intrinsically Safe (IS) products. See Intrinsically Safe section for details.

Audio Accessories

Speaker Microphones 1

Our range of Speaker Microphones offer many features and something unique to meet the needs of a variety of users and environments. This comparison table is a quick guide to the models to take a closer look at to include in your fleet.

Audio Accessories

Speaker Microphones 1

LIGHT DUTY

These speaker microphones offer the convenience of a light weight shoulder mount, while your portable radio is securely fastened to your belt, ideal for light duty roles.

LIGHT-WEIGHT

Speaker Mic Light-Weight

 T03-00045-ERAA

Features:

- 3.5mm earpiece jack
- Cord approx. 50cm unstretched
- Rotatable lapel clip

For use with:

- TP9300, TP9400, TP3, TP8100

Not for use with Intrinsically Safe or Non-Incendive radios.

Audio Accessories

Speaker Microphones 1

LIGHT DUTY

This speaker microphone offers the convenience of a light weight shoulder mounted extension of radio function, while your portable radio is securely fastened to your belt.

TSM3

TSM3 Speaker Mic

■ T03-00045-NDCA

Features:

- 3.5mm ear piece jack
- Rugged, dust proof and water immersible (IP67 rated with connector jack sealed)
- Speaker: 1W
- Tait design water shedding grille and microphone
- Function button (programmable emergency button)
- Push to Talk button
- Cable length (extended) is 0.8m, diameter 4mm
- Compatible Earpieces:
 - T03-00086-0101 Earpiece In-ear
 - T03-00086-0201 Earpiece C-hook
 - T03-00086-0301 Earpiece D-ring

For use with:

- TP9000, TP3000

Not for use with Intrinsically Safe or Non-Incendive radios.

Audio Accessories

Speaker Microphones 1

STANDARD DUTY

This speaker microphone offers a medium weight shoulder mounted extension of radio function, while your portable radio is securely fastened to your belt. With enhanced audio and ruggedness, well suited to harsh work environments.

TSM3e

TSM3e Speaker Mic Medium Weight

T03-00045-NDAA

Features:

- 3.5mm ear piece jack
- Rugged, dust proof and waterimmersible (IP67 rated with connector jack sealed)
- Speaker: 2W
- Tait design water-shedding grille and microphone
- Function button (programmable emergency button)
- Heavy duty cable
- Cable length (extended) is 1.5m, diameter 5mm
- Push to Talk button
- Compatible Earpieces:
 - T03-00086-0101 Earpiece In-ear
 - T03-00086-0201 Earpiece C-hook
 - T03-00086-0301 Earpiece D-ring

For use with:

- TP9000, TP3000

Not for use with Intrinsically Safe or Non-Incendive radios.

Audio Accessories

Speaker Microphones 1

HEAVY DUTY

Remote Speaker Microphones provide a shoulder mounted extension of radio function while your portable radio is securely fastened to your belt.

The TSM4 is designed to meet the needs of Public Safety and a wide range of professional users. It is a rugged accessory with high quality audio performance.

TSM4

TSM4 Speaker Mic Heavy Duty **T03-00045-PCAA**

TSM4 Speaker Mic Heavy Duty Short Cable **T03-00045-PCEA**

Features:

TAIT TOUGH FOR PUBLIC SAFETY AND HEAVY DUTY APPLICATIONS

- Rugged design
- IP68 dust-proof and water-immersible (IP68 rated with/without audio jack bung)

HIGH QUALITY AUDIO: HEAR AND BE HEARD IN CHALLENGING SITUATIONS

- Speaker 3W nominal, 6W maximum
- Tait water-shedding speaker grille and microphone
- 3.5mm connector plug for earpieces
- Digital and analog compatible

USER-FRIENDLY, ERGONOMIC DESIGN

- Dimensions (HxWxD excluding clip): 82.6mm (3.25in) x 60.3mm (2.37in) x 28.2mm (1.11in)
- Large, protected Push-to-Talk button
- Glove-friendly orange programmable emergency and function button
- Additional programmable function button
- Large 360 degree rotating clip
- Heavy duty cable with extended length 1.5m (5ft) or short cable option 0.9m (3ft), diameter 5mm (0.2")
- Replaceable spare parts (lapel clip, cable, and audio jack bung)
- Compatible 3.5mm Jack Earpieces:
 - T03-00086-0101 Earpiece In-ear (right-angled jack)
 - T03-00086-0201 Earpiece C-hook (right-angled jack)
 - T03-00086-0301 Earpiece D-ring (right-angled jack)
 - T03-00086-0102 Earpiece In-ear (straight jack)
 - T03-00086-0202 Earpiece C-hook (straight jack)
 - T03-00086-0302 Earpiece D-ring (straight jack)

For use with:

- TP9000, TP3000

Not for use with Intrinsically Safe or Non-Incendive radios.

Audio Accessories

Speaker Microphones 1

HEAVY DUTY (CONTINUED)

These speaker microphones offer a heavy duty, shoulder mounted extension of radio function, while your portable radio is securely fastened to your belt. Well suited to rugged work environments.

EVOLUTION

Evolution 2.5mm Ear Piece Jack
Evolution 3.5mm Ear Piece Jack

T03-00045-JFAA
 T03-00045-JBAA

Features:

- Choice of 2.5mm or 3.5mm ear piece jack
- Fully sealed housing to MIL-STD-810 specs
- High/low volume control
- Emergency button
- PTT switch life: 1 million cycles
- Heavy duty cable

For use with:

- TP9000, TP3000

Not for use with Intrinsically Safe or Non-Incendive radios.

STORM

Storm Speaker Mic

T03-00045-KFAA

Features:

- 2.5mm ear piece jack
- Large PTT with positive tactile feedback
- Push-button high/low volume control below PTT
- Emergency button
- Compatible with a variety of radio models
- Exceeds MIL-STD-810F spec, 40mph blowing rain
- Immersion rated, fully sealed to IP68

For use with:

- TP9000, TP3000

Not for use with Intrinsically Safe or Non-Incendive radios.

Audio Accessories

Speaker Microphones 1

HEAVY DUTY (CONTINUED)

These speaker microphones offer a heavy duty, shoulder mounted extension of radio function, while your portable radio is securely fastened to your belt. Well suited to rugged work environments.

GENESIS

Genesis Speaker Mic

T03-00045-DMAA

Features:

- Fully sealed against water and dust penetration to IP68
- Removable front grill for easy cleaning and maintenance
- Large snap-action PTT suitable for use with gloves
- Emergency button with large notch for easier actuation
- Loud speaker mic suitable for noisy environments
- Heavy duty cable

For use with:

- TP9000, TP3000

Not for use with Intrinsically Safe or Non-Incendive radios.

*NOTE: The Genesis Speaker Mic is now End of Life. Last time buys are possible - please contact your local Tait Dealer, or consider alternative options such as the **TSM4 Speaker Mic** or **Savox C-C550**.*

Audio Accessories

Speaker Microphones 1

WIRELESS

These speaker microphones offer a shoulder mounted extension of radio function, such as push-to-talk and emergency alerts, while your portable radio is securely fastened to your belt.

In covert mode LED indications are suppressed and audio annunciations are selectively muted. Support for an audio headset is provided by a standard 3.5mm jack, which mutes the speaker when used.

This accessory incorporates a number of design features for mission critical applications, including emergency button, auxiliary buttons, covert mode and high quality audio, making it well suited to rugged and noisy work environments.

NIGHTHAWK LAPEL MIC

Lapel Mic Nighthawk Bluetooth® with 3.5mm earpiece ■ TTP-00047-0001

Features:

- Talk time 12hrs / Standby 80hrs
- USB rechargeable li-ion battery, battery is replaceable
- 10m (32ft) operational range
- 3.5mm audio jack supports external earpiece or external microphone
- Fin Ultra™ Eartip, unique design for all-day comfort:
 - Soft silicone gel for flexibility and comfort
 - Large cutouts allow more ambient sound for higher situational awareness
 - Replaceable acoustic eartube
- Rotating clip
- IP65 rating
- Covert mode
- Multifunction button for easy pairing, on/off, accept/end calls

Specifications:

- Bluetooth® version and RF spec – Bluetooth® 3.0, Class 2
- Encryption – 128 bit key encryption
- Frequency range – 2.4000 - 2.4835GHz
- RF Power / Sensitivity – 6dB / -90dB
- Audio output bandwidth – 20Hz ~ 20kHz
- Audio input SNR @ 8kHz – 79dB
- Average standby current – 6mA
- CMRR – 50dB
- Operating temperature -15°C ~ 50°C
- Storage temperature -25°C ~ 60°C

For use with:

- TP9000

Compliance:

- FCC (US), CE (Europe), and RCM (NZ, Australia) compliance

Not for use with Intrinsically Safe or Non-Incendive radios.

AINA PTT VOICE RESPONDER

Aina PTT Voice Responder

■ ■ **TTP-00045-0001**

Features:

- Easy to use
 - Simple Bluetooth® pairing
 - Two PTT buttons to simplify communication to two main channels or contacts
 - Call-answer button
 - Volume control
 - 3.5mm standard audio jack for connection to a wide variety of earpieces and headsets
 - Battery life: ~24 hours
- High quality audio suitable for noisy environments
 - Sound pressure level of 105dB at 10cm
 - Wide-band audio
 - Noise suppression
 - Echo cancellation
 - Wind noise reduction
- Built for critical communications
 - Real-time PTT: short latency
 - Emergency button increases worker safety by allowing a worker in distress to notify dispatch about an emergency
 - Covert mode option
 - Rugged IP67 dust and water resistant
 - MIL-STD 810G 2 meter drop test and environmental protection

For use with:

- TP9000 TP3, Android and IOS smartphones with PTT applications

Not for use with Intrinsically Safe or Non-Incendive radios.

Audio Accessories

Ear Pieces for Speaker Mics 2

HEAVY DUTY EAR PIECES

Ear pieces offer the option of discreet voice calls, and are great in environments where a loud speaker is inappropriate.

EARPHONE IN-EAR

Earphone In-Ear

T03-00053-0451

Features:

- Professional grade
- Discreet, flexible, transparent acoustic tube
- Designed to fit either the left or right ear
- Lightweight ear piece
- Quick disconnect earphone adapter for easy acoustic tube replacement

For use with:

- Speaker microphones with a 2.5mm jack (e.g. Evolution and Storm models)

Not for use with Intrinsically Safe or Non-Incendive radios.

EAR HANGER

Ear Hanger

T952-055

Features:

- Professional grade
- Soft rubber ear loop with speaker
- Rotational clip to fit either the left or right ear
- Lightweight ear piece

For use with:

- Speaker microphones with a 2.5mm jack (e.g. Evolution and Storm models)

Not for use with Intrinsically Safe or Non-Incendive radios.

- Available in black color
- 3.5mm right angle or straight connector

For use with:

- TSM3, TSM3e, and TSM4 only

Not for use with Intrinsically Safe or Non-Incendive radios.

Audio Accessories

Headsets 3

Headsets offer the best noise reduction for receiving calls in high noise environments.

HEAVY DUTY OVER HEAD

Heavy Duty Over Head Headset

 **T03-00046-FAAA**

Features:

- Rotating boom for left or right positioning
- Flexible, noise canceling boom microphone with replaceable windscreen
- In-line PTT in cable
- Comfortable, cloth-covered ear seals

For use with:

- TP9000

Not for use with Intrinsically Safe or Non-Incendive radios.

HEAVY DUTY BEHIND HEAD

Heavy Duty Behind Head Headset

 **T03-00046-FEAA**

Features:

- Designed for use with a helmet or hat
- Discreet c-style headband for comfortable, stable fit
- In-line PTT
- Flexible, noise canceling boom microphone with replaceable windscreen
- Improved ear seal design delivers advanced noise reduction and superior comfort

For use with:

- TP9000

Not for use with Intrinsically Safe or Non-Incendive radios.

Audio Accessories

Headsets (continued) 3

Headsets offer the best noise reduction for receiving calls in high noise environments.

HURRICANE BEHIND HEAD

Hurricane Behind Head Headset

 **T03-00046-GEAA**

Features:

- Lightweight and comfortable design
- Behind the head style headset with dual ear inserts
- Noise canceling boom microphone with replaceable windscreen
- Noise reducing Ear Inserts offer a certified NRR of 29dB

For use with:

- TP9000

Note: The Hurricane Behind Head is supplied with two sets of ear insert options: clear ear tips and foam earplugs.

Not for use with Intrinsically Safe or Non-Incendive radios.

LIGHT WEIGHT BEHIND HEAD

Light Weight Behind Head Headset

 **T03-00046-EFAA**

Features:

- Flexible boom microphone
- Finger mount PTT
- Lapel clip

For use with:

- TP9000, TP3000

Not for use with Intrinsically Safe or Non-Incendive radios.

Audio Accessories

Surveillance Kit 4

Surveillance kits offer a discreet device that can be worn under clothing for covert communications.

2-WIRE SURVEILLANCE KIT

2-Wire Surveillance Kit

■ ■ T03-00047-AAAA

Features:

- Professional grade
- Separate wires for ear piece and Microphone/PTT button with lapel clip.

For use with:

- TP9000

Not for use with Intrinsically Safe or Non-Incendive radios.

COVERT KIT EARTUBE-IN-EAR

Covert Kit Eartube-In-Ear, Mic with PTT

■ ■ T03-00047-BAAA

Features:

- Commercial grade
- Transparent in-ear piece
- Microphone with lapel clip
- PTT on microphone
- Cord length approx 1000mm

For use with:

Antennas for Tait Portables

TP8000/TP9000 Antennas

Antennas for frequencies supported by Tait portable radios.

SELECT THE RIGHT ANTENNA FOR YOUR JOB

Tait radio antennas are available in **Whip** and **Helical** variants for each frequency band. Whip antennas are typically longer, and offer greater coverage. Helical antennas are typically shorter, but offer less coverage.

- ▶ If your radio users prioritize coverage over a compact antenna, we recommend you select the Whip variant.
- ▶ If your radio users prioritize a compact antenna over coverage, we recommend you select the Helical variant.

OPTIMIZING COVERAGE

Whichever antenna you choose, a radio that is hand-held will offer greater coverage than a radio that is worn on the body, as the human body can block or absorb radio signal. See our Carry Accessories section for the right carry option for your users.

VHF				
136-174MHz	Wideband Helical	219mm		TPA-AN-034
136-225MHz	Tunable Helical	Cut to length		TPA-AN-001
136-151MHz	Helical	183mm		TPA-AN-002
150-162MHz	Helical	170mm		TPA-AN-003
155-167MHz	Helical	163mm		TPA-AN-032
162-174MHz	Helical	155mm		TPA-AN-004
174-193MHz	Helical	140mm		TPA-AN-040
213-225MHz	Helical	120mm		TPA-AN-041

UHF				
320-380MHz	¼ Wave Whip	200mm		TPA-AN-035
378-470MHz	¼ Wave Whip	160mm		TPA-AN-037
380-420MHz	¼ Wave Whip	181mm		TPA-AN-039
400-470MHz	¼ Wave Whip	160mm		TPA-AN-011

Programming & Service Accessories

TP9800 Front Panel Programming & Radio Cloning

Without the need of a computer with a programming application, authorized users are able to enter channel frequencies, bandwidth and labels directly into the radio as well as configure CTCSS or DCS subaudible tones and NAC codes. Zone information can also be cloned directly from radio to radio.

Front panel programming and cloning eliminates the need of a computer with a programming application when operating remotely in the field - all you need is a AA battery powered radio when you're off the grid.

Front panel programming, cloning and selectable signaling are requirements for US Wildland Fire Agencies. This capability is restricted in the USA by the FCC and is available only to authorized agencies. A number of controls are required:

- ▶ A Tait Software Feature Enabler (SFE) is required to enable this capability in a TP9800 radio
- ▶ Custom firmware is required to enable this capability in a TP9800 radio
- ▶ Features related to front panel programming and cloning are password protected in the radio to ensure that only authorized and qualified personnel perform these actions

FRONT PANEL PROGRAMMING

TP9800 Front Panel Programming SFE ■ TPAS118

Features:

- PIN protection restricts access to authorized users
- Enter channel frequencies, bandwidth and labels directly into the radio
- Configure User Selectable Picklist for CTCSS/DCS/NAC

For use with:

- TP9800, with custom software loaded

Not for use with Intrinsically Safe or Non-Incendive radios.

RADIO-TO-RADIO ZONE CLONING

TP9800 Cloning SFE ■ TPAS119 TP9800 Cloning Cable ■ T03-00053-0105

Features:

- PIN protection restricts access to authorized users
- Easily replicate the programming from one radio throughout the fleet, without the need of a computer with a programming application

For use with:

- TP9800, with custom software loaded

Not for use with Intrinsically Safe or Non-Incendive radios.

INTRINSICALLY SAFE ACCESSORIES

Electronic equipment can be an ignition source, hazardous in an explosive atmospheric environment

Intrinsic Safety is one method of meeting safety standards in these environments. Detailed information about Intrinsically Safe standards can be found here: www.taitcommunications.com/solutions/intrinsically-safe

Tait offers Intrinsically Safe (IS) portable radios with limited electrical and thermal output for use in hazardous locations. Only Tait approved IS accessories can be used with Tait IS portable radios, as listed in this catalog.

The IS rating of the radio, battery, and accessories must be reviewed to ensure a safe IS radio system. IS ratings must be “matched”, and the lowest approval level determines the overall IS radio system approval. If non-IS accessories are used with IS radios, the radio system is not Intrinsically Safe.

Equipment labels clearly identify the item’s ratings.

Tait IS radios and accessories are certified to meet a number of compliance standards: **IECEx** (International), **ATEX** (Europe), **AEx** (USA), **Div1** (USA), **CaEx** (Canada), **INMETRO** (Brazil).

Each accessory in this catalog states which compliances apply.

IS

Intrinsically Safe Batteries

Tait portable radio Intrinsically Safe batteries

Intrinsically Safe batteries feature an anti-static surface pattern to reduce static electricity.

GENERAL TAIT BATTERY FEATURES

- ▶ Premium quality Li-Ion cells
- ▶ Over charge protection
- ▶ Over-current protection
- ▶ Thermal protection
- ▶ Over-discharge protection

BUILT TO EXCEED AND SURVIVE TAIT TOUGH AND MIL-STD810G DROP TESTS

- ▶ Strong attachment
- ▶ Rubberized corners

Intrinsically Safe Chargers

TP9000 IS Desktop Chargers

These Desktop Chargers are available as either a Single Charger or a convenient 6-Way Multi Charger. Choose the appropriate plug pack or cable for your region.

Chargers for IS batteries are marked with an IS circle logo. You must use these chargers with an IS battery, as their internal circuitry provides additional protection for the IS circuitry in the battery and radio.

THE TP9000 IS DESKTOP CHARGERS ARE COMPATIBLE WITH:

- ▶ TP9300/TP9400 IS portable radios *
- ▶ Intrinsically Safe Batteries for the TP9300/TP9400 IS portable radios

* Chargers must be selected according to required safety compliance.

SINGLE CHARGER

Single Charger with Plug Pack

- Australia/New Zealand IECEx/ATEX
- United Kingdom IECEx/ATEX
- Europe IECEx/ATEX

- There are options without mains cables.
- This is a desktop charger
- Charge up to six radios with batteries attached, or batteries only.

IS

Intrinsically Safe Chargers

TP9000 IS Vehicle Chargers

Our unique in-vehicle charger provides charging even in the toughest vehicle environments, ensuring batteries are optimally charged to keep users connected over long shifts. The vehicle charger can charge batteries connected to the radio, and also on their own.

This rugged in-vehicle radio charger securely holds the radio, exceeding crash-test requirements, minimizing in-vehicle hazards.

Chargers for IS batteries are marked with an IS circle logo. You must use these chargers with an IS battery, as their internal circuitry provides additional protection for the IS circuitry in the battery and radio.

THE TP9000 VEHICLE CHARGER IS COMPATIBLE WITH:

- ▶ TP9300/TP9400 IS portable radios

IS VEHICLE CHARGER

CHARGING SOLUTION FOR PORTABLE RADIOS

Charging portable radios within a vehicle is a vital aspect of everyday operation. Unforeseen events require the flexibility to charge portables radios while on operation, so you are always prepared. The Vehicle Charger has been designed for tough conditions to assure reliable charging, and also keep the portable radio secure.

EFFICIENT CHARGING

The charger displays charging information consistent with the other Tait chargers. Battery faults, charging cycle and ready batteries are clearly indicated.

SUITABLE FOR MOUNTING IN VEHICLE

This charger is supplied with a power cable, but no fasteners, and can be mounted in a variety of different ways, including installation against a vertical surface. When properly fitted, the charging radio is safe and secure. The charger is compatible with RAM® Mounts RAM-202U "Round Plate with Ball" – please see the [Vehicle Charger Installation Instructions](#) for more info.

IS Intrinsically Safe Carry Accessories

Carry Cases provide a range of options to provide:

- ▶ Extra protection for your radio, minimizing damage wear and tear and prolonging the life of your investment
- ▶ Choice of options personal comfort and ease of use when carrying and using your radio.

Tait radios are Built Tait Tough to take the knocks – the Tait Belt Clip, and Optional Belt Clip adaptor provide:

- ▶ A low cost alternative to carry your radio
- ▶ Secure attachment, quick release, and improved RF coverage with the belt clip adaptor
- ▶ Full visibility of your radio, e.g. your high visibility color, blue for IS, custom labeling etc
- ▶ Full tactile and ergonomic access to the radio operation

Carry cases and belt clip adapters are very important tools for improving coverage by pushing the antenna farther from the body as the body can block or absorb signals.

Note: belt clip & belt clip adaptor also applies to TP8100, TP9100, TP9461 and TP9361 IS radios

BELT CLIP

Belt Clip 55mm

TPA-CA-201

Tough carry accessory.
Comes standard in every radio package.
Not included with spare batteries.
Strong attachment, easy to remove without tools.

For use with: All TP8000/9000 radios

BELT CLIP SWIVEL ADAPTOR

Belt Clip adaptor for 55mm belt clip

TPA-CA-208

This adaptor provides secure, robust attachment of radio to your belt, allowing easy release for handheld operation. Avoiding interference with day-to-day tasks is critical for active staff.

- Unique, rugged accessory designed to last
- Allows the radio to securely swivel 15deg forwards and backwards from center, providing ergonomic but constrained movement for user comfort
- Provides low-cost, secure radio attachment
- Release mechanism allows for easy intentional release, but makes it extremely difficult for the radio to be unintentionally removed – perfect for public safety and security usage
- Improves radio range by angling the antenna away from the user's body

REQUIRES: TPA-CA-201

INTRINSICALLY SAFE AUDIO ACCESSORIES

The right audio accessories can help you do your job more safely and effectively

Whether your team operates in a particularly noisy environment, or has a need for covert communications, Tait offers a range of audio accessories to make sure voice calls get through loud and clear. Only Tait approved IS accessories can be used with Tait IS portable radios, as listed in this catalog.

The IS rating of the radio, battery, and accessories must be reviewed to ensure a safe IS radio system. IS ratings must be “matched”, and the lowest approval level determines the overall IS radio system approval. If non-IS accessories are used with IS radios, the radio system is not Intrinsically Safe. IS accessories must be approved for the compliance region they are to be used in, and must have the correct ratings for their operating environment.

An IS audio accessory is identified by either:

- ▶ An IS circle logo on the audio accessory
- ▶ A label on the audio accessory, showing IS information

IS Antennas for Tait Portables

TP8000/TP9000 Antennas

Antennas for frequencies supported by Tait portable radios.

SELECT THE RIGHT ANTENNA FOR YOUR JOB

Tait radio antennas are available in **Whip** and **Helical** variants for each frequency band. Whip antennas are typically longer, and offer greater coverage. Helical antennas are typically shorter, but offer less coverage.

- ▶ If your radio users prioritize coverage over a compact antenna, we recommend you select the Whip variant.
- ▶ If your radio users prioritize a compact antenna over coverage, we recommend you select the Helical variant.

OPTIMIZING COVERAGE

Whichever antenna you choose, a radio that is hand-held will offer greater coverage than a radio that is worn on the body, as the human body can block or absorb radio signal. See our Carry Accessories section for the right carry option for your users.

VHF				
136-151MHz	Helical	165mm		TPA-AN-002
150-162MHz	Helical	165mm		TPA-AN-003
162-174MHz	Helical	165mm		TPA-AN-004
155-167MHz	Helical	165mm		TPA-AN-032
136-174MHz	Wideband Helical	219mm		TPA-AN-034
UHF				
320-380MHz	¼ Wave Whip	200mm		TPA-AN-035
378-470MHz	¼ Wave Whip	160mm		TPA-AN-037
400-470MHz	¼ Wave Whip	160mm		TPA-AN-011
450-520MHz	¼ Wave Whip	135mm		TPA-AN-012*
320-380MHz	Helical	94mm		TPA-AN-036
378-470MHz	Helical	74mm		TPA-AN-038
400-470MHz	Helical	74mm		TPA-AN-013
450-520MHz	Helical	67mm		TPA-AN-015
700 / 800 / 900MHZ				
762-870MHz	½ Wave Whip	180mm		TPA-AN-022

* Note: Not approved for use with carry case T03-22007-0003 (IS Heavy Duty Leather 16 Key Belt Loop) in FCC jurisdictions.

IS
**Intrinsically Safe
 Programming & Service
 Accessories**

Only IS programming adapters can be used when programming Intrinsically Safe Portables, also required for loading encryption keys via Tait Key Fill Device.

TP8000 / TP9000		COMPATIBLE WITH:
TP93/94 Programming Adaptor AEx/ CaEx	 T03-22009-AAAA	TP9361, TP9358, TP9368, TP9461,
TP93/94 Programming Adaptor IECEx / ATEX	 T03-22009-ADAA	TP9361, TP9461
